- Breast diseases**
- A musculocutaneous transposition flap mammoplasty for correction of the tuberous breast (Elliott), *case report*, 153
- Pyoderma gangrenosum and progressive cutaneous ulceration (Rand et al), *case report*, 280
- Surgical management of severe mammary hidradenitis suppurativa (Moosa et al), *case report*, 82
- Breast neoplasms**
- Breast cancer in a patient with silicone breast implants after 13 years (Bingham et al), *case report*, 236
- re: Orenstein and Tsui: cystosarcoma phylloides treated by excision and immediate reconstruction with silicone implant (Hoffman), *letter*, 201

Breast reconstruction

- Breast reconstruction with a subcutaneous tissue expander followed with a polyurethane-covered silicone breast implant (Artz et al), 517
- Postoperative radiation and implant capsule contraction (Caffee et al), 35
- Burns**
- Biological evaluation of burn blister fluid (Uchinuma et al), 225
- Burn scar sarcoma (Gargan et al), *case report*, 477
- Burns, electric**
- Medial arm fasciocutaneous island flap coverage of an electrical burn of the upper extremity (Iwahira and Maruyama), *case report*, 120
- Carcinoma**
- Eccrine porocarcinoma (Matloub et al), *case report*, 351
- Carcinoma, basal cell**
- Anatomical alar reconstruction with staged nasolabial flap (Redman and Olshansky), *case report*, 285
- Basal cell carcinoma covering 4% of total body surface area (Murray et al), *case report*, 292
- Basal cell carcinoma of the cheek, malar region, and lower eyelid: the role of large cheek-neck flaps (Guerrerosantos and Lopez-Luque), 304
- Eye socket and eyelid reconstruction using the combined island frontal flap and retroauricular island flap: a preliminary report (Ohtsuka), *case report*, 244
- One-stage arm-preserving shoulder resection with latissimus dorsi flap for basal cell carcinoma (Craig et al), *case report*, 158
- Topical 5-fluorouracil in treatment of carcinoma of nasal floor and nasal alae (Ryan and Marks), 48
- Carcinoma, squamous cell**
- Oral squamous cell carcinoma in children (Earle et al), *case report*, 148
- Topical 5-fluorouracil in treatment of carcinoma of nasal floor and nasal alae (Ryan and Marks), 48
- Cartilage, radiation effects**
- Processed irradiated bovine cartilage for nasal reconstruction (Ersek and DeLerm), 540
- Case reports**
- Anatomical alar reconstruction with staged nasolabial flap (Redman and Olshansky), 285
- Anatomical considerations in the repair of macrostomia (Verheyden), 374
- Angiokeratoma circumscriptum: successful treatment with the argon laser (Pasyk et al), 183
- Basal cell carcinoma covering 4% of total body surface area (Murray et al), 292
- Bilateral island vermilion flaps for vermilion border reconstruction (Sakai et al), 459
- Bony and soft tissue reconstruction and rehabilitation following traumatic hemipelvectomy exsanguination and cardiac arrest (Nichter et al), 326
- Breast cancer in a patient with silicone breast implants after 13 years (Bingham et al), 236

- Burn scar sarcoma (Gargan et al), 477
- A case of invoking a Scot's economy or seven-in-a-stroke (Yuan), 481
- Case of the disappearing breast implants (Schnur), 270
